THE RALLY

You will enter Springwood Park by the main gate. In order to reduce congestion on the road outside you may be asked to wait in a temporary parking area within the field. The steward will then direct you to the appropriate exhibition area.

You are responsible for the safe unloading/loading of your exhibit. Please speak to a committee member if you require assistance. An area will be set out for this purpose and you will be directed to use it for larger exhibits such as tractors. Be aware that pedestrians may be in the area.

The field is set out into designated exhibition areas. Please follow directions of Stewards.

Stationary engines must be attended at all times when running.

Tractors and other motor vehicles must have engines switched off and parking brake applied when driver leaves driving seat.

Only holders of a valid and appropriate driving license are allowed to drive or operate vehicles on the rally field.

Passengers are not allowed on moving tractors at any time (unless the tractor has a safety cab and a manufacturer installed passenger seat)

Follow Tractor Stewards directions when entering and leaving tractor exhibit area and main parade ring.

Please make sure your vehicle is insured to be shown at shows

Certain parts of the showground are designated as "working areas." They are roped off and only competent persons are allowed within the area when PTO or belt driven machinery is in use.

Guarding appropriate to the age of the machinery must be used.

PTO or hydraulically operated implements may be operated for demonstration purposes within the main ring. The Chairman's decision is final regarding such operation.

Avoid reversing of vehicles wherever possible. There is plenty of space on the showground to turn round.

Take care around steam engines and follow any instruction from the driver to move out of the way.
